2018-2019 Trackside Services

Trackside Support

-\$700.00* /day per car

-\$1,000.00*/day per car for Can Am, Indycar & Formula 1 cars.

(Pro Racing & Club Racing please call for details)

At all events, there will be a charge equal to a half day trackside support for setting up our paddock space the day before the event. Any event requiring cross country travel will also require travel day charges of \$400.00 per day.

**Any fees or charges incurred will be reimbursed by the customer.*

***All parts, chemicals, race gas, supplies, etc. to be billed as used.*

Expenses

Expenses will be divided equally among the number of cars supported at the race event and paid by the customer. All Can Am; Indycar & Formula 1 cars will require 2 mechanics. Any extra expenses incurred for those mechanics will be paid by the individual customer.

Each customer will pay a share of the expenses incurred getting to and from the race event and while at the race event (race car transportation costs are covered by transportation fees). These costs are divided equally by the number of cars being supported at the event. These costs apply for each mechanic. We will work to get the lowest possible prices for these costs. In order to do this, it requires as much advance notice as possible by the customer.

All entries and fees are to be sent and paid by the customer.

Some events offer open track days prior to the event itself. Any costs to run these days will be billed out to the individual customer.

Test Day Fees

-Pro/Club Racing please call for details.

-\$700.00/day*

-\$1,000.00/day * for Can Am, Indycar & Formula 1

**Plus Track Fees*

Transportation Fees

Transportation price list to be provided upon request.

Cancellation Policy

Less than 14 days prior to the race the customer will be charged an amount equal to one day's track support.
